Statewide HUB Program

October 15, 2024

The Honorable Greg Abbott, Governor
The Honorable Dan Patrick, Lieutenant Governor
The Honorable Dade Phelan, Speaker of the House of Representatives

Gentlemen,

The Comptroller of Public Accounts' Statewide Historically Underutilized Business (HUB) Program is pleased to submit the Statewide HUB Program's Fiscal 2024 Education and Outreach Report as required by Texas Government Code Section 2161.126. This report summarizes the program's education and outreach activities during fiscal 2024.

The Statewide HUB Program participated in 117 education and outreach events, 23 more than in fiscal 2023. These events in this report are categorized as in-person events and virtual events. Additionally, there are one-on-one trainings where specific HUB related information has been requested by a single individual or entity." Below is a break-down of these HUB educational and outreach events:

- 30 in-person events: Program staff provided marketing, education and participation with booths when available.
- 51 virtual events: Program staff provided planning, marketing, training and participation in virtual booths when available. Three events were either HUB Coordinator trainings about reporting requirements and/or processes. This category increased the most, with 17 more than in the prior fiscal year.
- 36 one-on-one trainings: Program staff provided education on the HUB certification system, compliance processes and procurement resources business development needs. This category had 10 more trainings than the previous year.

Education and networking trainings focused on the HUB certification system and how to build a successful HUB profile with accurate commodity code descriptions and contact information. The trainings provided detailed information on these topics:

- The state's procurement processes.
- Best practices for interacting with HUB coordinators and purchasers.
- HUB resources including:
 - Electronic State Business Daily.
 - Centralized Master Bidders List and the HUB Directory.
 - National Institute of Governmental Purchasing codes.
 - HUB reporting.
 - HUB certification requirements.
- Tips for successful competitive bid responses.

The Statewide HUB Program remains committed to expanding the awareness of the state's program to prepare HUBs for bid solicitation responses and strengthening their ability to use the online system certification applications.

Educating the good faith effort in the state procurement process to certified HUBs should lead to an increase in the number of HUB awards. For questions about this Education and Outreach Report, please contact Linda Rogers, Manager of the Statewide HUB Program, by email at Linda.Rogers@cpa.texas.gov or at (512) 936-4115.

Respectfully,

A handwritten signature in black ink, appearing to read "Bobby Pounds".

Bobby Pounds, Director
Statewide Procurement Division (SPD)
Comptroller of Public Accounts (CPA)

INTRODUCTION

As administrator of Texas' Statewide Historically Underutilized Business (HUB) Program, the Texas Comptroller of Public Accounts is responsible for facilitating the statewide use of HUBs by effectively promoting business opportunities and ensuring the integrity of the program through certification, compliance, education, outreach efforts and reporting functions.

The Texas economy continues to grow and remain strong, and we see that reflected in the **16,988** actively certified HUBs in fiscal 2024, an increase of more than 100 HUBs than the previous year, that continue to turn to the state as a trusted source for ongoing procurement opportunities. Virtual meeting platforms continue to be a viable option for the Statewide HUB Program to provide education and outreach to potential new HUBs. This option also allowed the expansion of new training opportunities with other state agencies, new local government entities, active and potential HUB vendors and our Memorandum of Agreement (MOA) partner organizations. The Statewide HUB Program is able to extend the reach of various education and outreach efforts to all stakeholders, whether they are in a major metropolitan area or rural locations across the vast state of Texas!

The online certification system continues to offer a simplified application process for vendors by eliminating the need to manually present documentation. However, the Statewide HUB Program continues to encounter an increased need for one-on-one trainings with vendors who need help accessing the online system, uploading requested documentation and completing applications. Other challenges include difficulty integrating the MOA partner organizations with the HUB certification process and compliance audits to access certification documentation. We now have determined special permission must be granted to do this efficiently, and HUB staff continue to work closely with the platform host to identify areas for growth to create processes that streamline the accuracy of compliance and certification reporting.

In fiscal 2024, training topics included navigating the online HUB certification system, accessing HUB resources, encouraging HUBs to register on the Centralized Master Bidders List (CMBL) and building successful HUB profiles with accurate commodity code descriptions. The Statewide HUB Program continuously evaluates the outreach and training initiatives against the needs of agencies, universities, certified and potential new HUBs, as well as MOA organizations.

The Mentor Protégé Program encourages agency/university sponsorship of mentors and protégés in agreements. The Statewide HUB program oversees the state's Mentor Protégé Program and helps agencies and universities within these agreements. In fiscal 2024, state agencies and universities sponsored 146 approved HUB Mentor Protégé Agreements, a slight increase from the 134 from the prior fiscal year.

The Statewide HUB program's website continues to serve as an important source of information and resources for vendors who seek to do business with state entities. The HUB website was viewed more than 231,000 times, with top webpages included the main HUB page: <https://comptroller.texas.gov/purchasing/vendor/hub/>, certification process: <https://comptroller.texas.gov/purchasing/vendor/hub/certification-process.php>, and vendor resources: <https://comptroller.texas.gov/purchasing/vendor/hub/resources.php> in fiscal 2024.

The Statewide HUB Program is required to report the education and outreach efforts each fiscal year to the Governor, Lieutenant Governor, Speaker of the House of Representatives as well as other key legislative members as stated in [Texas Government Code 2161.126](#). This report provides an overview of the efforts the program has made to assist agencies, universities and HUB vendors in a good faith effort to increase the ability of HUBs to do business within the state of Texas.

I. VISION, MISSION AND PHILOSOPHY

The **vision** of the Statewide HUB Program is to certify qualified minority-, woman-, and service-disabled veteran-owned small businesses in Texas as HUBs and increase their award opportunities.

It is the program's **mission** to encourage agencies to increase the use of HUB vendors in state purchasing and provide HUBs with useful information about the state's procurement process.

The Statewide HUB Program's **philosophy** is educating HUB Coordinators to maintain compliant internal HUB programs and teaching HUBs about the procurement process will improve their responses to solicitations and ability to do business with the state of Texas.

Through education and outreach efforts in fiscal 2024, the Statewide HUB Program:

- Administered the program's online certification and compliance functions.
- Provided training about rules and statutes to ensure compliance.
- Provided resource training to HUBs to increase their ability to participate in the state's procurement and competitive bid processes, including:
 - Electronic State Business Daily (ESBD).
 - CMBL and the HUB Directory.
 - National Institute of Governmental Purchasing (NIGP) codes.
 - HUB Coordinator, MOA, other small business collaborative contact lists and links.

- HUB reporting to target state agencies and universities.
- HUB certification requirements.
- Encouraged state agencies and universities to establish a compliant internal HUB program.
- Assisted state agencies and universities in education and outreach efforts to increase their good faith efforts with HUB vendors.
- Educated HUBs to use the business development tools found on the HUB webpage and identify the opportunities statewide.

- Texas Department of Transportation (TxDOT)
- Women’s Business Council Southwest (WBCS)
- Women’s Business Enterprise Alliance (WBEA)

At small business forums hosted by MOA organizations, the Statewide HUB Program provided small business owners and aspiring entrepreneurs with timely and relevant advice on how to grow and sustain their business relationships with the state. These forums also provided networking opportunities with other entrepreneurs, business owners and state agency procurement professionals.

II. POLICIES ON EDUCATION, OUTREACH, AND INFORMATION DISSEMINATION

The Statewide HUB Program’s education and outreach activities are designed to provide full and equal learning opportunities for all qualified HUB businesses involved in state contracting, based on the goals specified in the [2009 Texas Disparity Study](#). The program works closely with certified HUBs, established MOA organizations, other minority- and women-owned business organizations, trade and professional organizations, chambers of commerce, state agencies, and institutions of higher education to help HUBs competitively participate for state procurement opportunities.

The Statewide HUB Program disseminated information using the [Education and Outreach Forums](#), previously known as Economic Opportunity Forums (EOF) calendar of events, [CPA sponsored events](#), marketing campaigns within the online HUB certification system and targeted email notices to notify HUBs of training opportunities.

EDUCATION AND OUTREACH

The Statewide HUB Program holds 12 Memorandum of Agreements (MOAs) aimed at increasing HUB certifications and collaborates with them throughout the year.

- Dallas/Fort Worth Minority Supplier Development Council (DFWMSDC)
- El Paso Hispanic Chamber of Commerce (EPHCC)
- Golden Triangle Minority Business Council (GTMBC)
- Houston Minority Supplier Development Council (HMSDC)
- Southwest Minority Supplier Development Council (SMSDC)
- Tri-County Regional Black Chamber of Commerce (TCRBCC)
- City of Austin, Small & Minority Business Resources (SMBR) Department
- City of Houston, Office of Business Opportunity (OBO)
- South Central Texas Regional Certification Agency (SCTRCA)

INFORMATION DISSEMINATION:

Through various platforms the Statewide HUB Program can provide key information to a mass quantity of targeted audience members. Those platforms include the following:

- **Education and Outreach Forums calendar of events:** This online calendar is composed of vendor fairs, conventions, conferences, workshops, seminars etc. that support small Texas businesses. This platform is geared toward public and private sector audiences, and state agencies, universities, local governments, business development centers or trade organizations can post and advertise events.
- **Comptroller-sponsored HUB events listing:** The Statewide HUB Program promotes sponsored events where the CPA assists in planning, outreach and advertising. Examples of sponsored events include spot bid opportunities and annual HUB forums or expos, where HUB resources are required for the planning and execution of the event.
- **Targeted marketing campaigns:** An added feature of the online HUB certification system enables the Statewide HUB Program to disseminate outreach campaigns by directly informing HUB vendors in the database about HUB-related events. A total of 16 campaigns provided marketing outreach for both virtual and in-person events in fiscal 2024.
- **GovDelivery:** Another resource the Statewide HUB Program uses for rapid dissemination of small business networking, procurement opportunity notifications or helpful training and resources. This platform is a trusted marketing tool for many government agencies.

III. EDUCATION AND OUTREACH GOAL AND STRATEGIES

The Statewide HUB Program continues to prioritize efforts to offer education and outreach to small business vendors, HUB vendors, agency and university HUB/procurement staff, as well as MOA certifying partner organizations. All efforts focus on increasing HUB participation throughout the state’s procurement process.

EDUCATION AND OUTREACH GOALS:

The Statewide HUB Program's education and outreach goal is to promote full and equal business opportunities for all HUB-qualified small businesses within state procurement and contracting. These four primary responsibilities guide the administration of the program:

- 1. Certification of HUBs:** Create a large pool of HUB vendors by certifying more minority-, women-, and service-disabled veteran-owned small businesses.
- 2. HUB Certification Compliance:** Provide training to MOA organizations, agency/university internal HUB Programs and to the HUB vendor community to ensure there is a clear understanding of the program's compliance expectations.
- 3. Education and Outreach:** Market to specific stakeholders to educate and notify them about HUB-related opportunities. The HUB Program targets two audiences:
 - Vendors are provided education in the state procurement process and business resources to assist in business development and competitive bid contract opportunities.
 - Various agency and university internal HUB programs amplify education and outreach efforts to HUB-certified businesses to participate in state agency and university opportunities.
- 4. HUB Program Reporting:** This encompasses preparation of the semi-annual and annual Statewide HUB Expenditure Reports which provides HUB reporting from the entire program collectively down to each individual internal HUB program.

EDUCATION AND OUTREACH STRATEGIES:

Various strategies have been developed to meet the fiscal 2024 education and outreach goal. These strategies are listed below along with details regarding their execution and measurement to determine success:

- 1. Certification Strategy:** Assist entities to identify and certify HUBs and increase the vendor pool.
 - **Execution:** Through the Statewide HUB Program education and outreach efforts, prospective HUBs are identified, certified, and listed in the HUB Directory.
 - **Measure:** Identify a breakdown of HUBs certified by category (minority, woman, or service-disabled veteran) and include MOA numbers.
- 2. Compliance Strategy:** Provide training to MOA organizations, university/agency internal HUB Programs and to the HUB vendor community to ensure there is a clear understanding of the program's compliance expectations.
 - **Execution:** Communicate regularly with MOA partnering organizations to keep them updated of certification compliance requirements.

- **Measure:** Analyze HUB audit numbers and review the MOA audit results to increase compliance with HUB requirements.

3. Education and Outreach Strategy: Help agencies and universities interpret and implement HUB rules related to the good faith effort, HUB subcontracting requirements, HUB reporting, HUB forums, Mentor Protégé Program, and the role of the HUB Coordinators.

- **Execution:** Maintain and review the HUB program by establishing rules and providing forms. This is achieved by providing trainings at HUB Discussion Work Group (HDWG) meeting and having one-on-one meetings with purchasing staff.
- **Measure:** Success or shortfall is based on education and outreach outcomes of the prior fiscal year's goals, along with HUB Coordinator feedback, recommendations, and suggestions, to identify if education and outreach efforts should change or continue.

4. Reporting Strategy: Provide agencies and universities guidance on accurate and efficient HUB reporting procedures.

- **Execution:** Effectively communicate and distribute HUB reporting requirements, deadlines, and portal instructions.
- **Measure:** Compare the total state dollars spent with the total amount awarded to HUB to identify growth or reduction.

IV. FISCAL 2024 GOALS ATTAINED

The Statewide HUB Program participated in 117 education and outreach events in fiscal 2024, an increase of more than 20 events from the prior fiscal year and 50 from fiscal 2022. Events included these training topics:

- The HUB Certification system and criteria to apply.
- HUB Resources, such as:
 - CMBL.
 - ESBD.
 - NIGP Commodity Codes.
 - HUB Directory Profiles.
 - HUB Coordinator List.
- HUB Reporting.
- Understanding the State Procurement Process, involving:
 - How to Prepare a Compliant HUB Subcontracting Plan (HSP).
 - Mentor-Protege Programs.
 - Texas Administrative Code (TAC) Updates.

Education and networking events. These events are with outside organizations or through agency/university HUB Forums. These were either performed in-person or virtually:

- **30** in-person events where program staff provided marketing, education and participation with booths when available.
- **51** virtual events when program staff provided planning, marketing, training and participation in virtual booths when available.

One-on-One training. HUB program staff provided education on specific HUB-related resources for business development or procurement information requested by single member organizations, vendors, or state agencies or and institutions of higher education and is not related to a HUB event.

- **36** one-on-one trainings were performed with either HUB vendors or agencies/universities, a substantial increase from 10 the prior fiscal year.

The Statewide HUB Program attended six in-person MOA-hosted events, which was one less, than the prior fiscal year. Below are some recaps of these MOA in-person efforts:

The 2024 “Doing Business Texas Style” Spot Bid Fair and HUB Expo, sponsored by Texas Senator Royce West and the Statewide HUB Program, was the largest and most well-attended event to date (post COVID-19) and was a complete success! The two-day event in conjunction with the Dallas Fort Worth Minority Supplier Development Council annual conference accumulated more than 1,800 minority, women, and service-disabled veteran owned small businesses who were eager to connect with more than 70 state agencies and universities. **More than \$2 million dollars was tallied to be awarded directly to HUB vendors from this event!** Educational seminar topics included: State Construction Projects and Resources; Mentor-Protege Program and Relationships; Becoming a DIR Vendor; and HUB Certification and Resources; Navigating the CMBL and ESBD; and other business development tools.

The Houston Minority Supplier Development Council Spot Bid Fair, sponsored by Texas Senator Borris L. Miles and the Statewide HUB Program, was held in conjunction with the 2023 HMSDC Expo. Vendors had access to 353 bid opportunities, which yielded \$165,732 awarded to HUB certified vendors! The Statewide HUB Program facilitated a state panel discussion, which included representatives from the Texas Department of Criminal Justice, Texas A&M University, Texas Department of Transportation, and the University of Texas Health Science Center – Houston.

The Statewide HUB Program sponsored the Golden Triangle Minority Business Council 2024 “Building Your Dreams” HUB Expo in Beaumont. This forum brought local area minority-, woman-, and veteran- owned businesses to attend HUB related workshops which were conducted by Statewide HUB Program, Texas Facilities Commission and Texas Department of Criminal Justice. Vendors could

also network with more than 20 state agencies and universities at this in-person event.

The Tri-County Regional Black Chamber of Commerce hosted a Regional Opportunity Forum which multiple HUB Coordinators attended to network with black owned businesses and provide Houston-area procurement opportunities. The Statewide HUB Program conducted trainings regarding HUB Certification and Resources, Navigating the CMBL and ESBD, and other available small business development information.

In addition to these MOA-sponsored events, another well-attended event was the annual Bexar County Small, Minority, Women, and Veteran Business Owners Business Conference. Since 2001, this annual gathering has bridged the gap for both public- and private-sector entities seeking vital information related to the procurement of construction, professional services, goods and other services. Procurement staff from all levels: local, state and federal can connect with firms seeking business opportunities to expand and grow. It was a well attended event with dedicated planning and training sessions, along with plenty of networking opportunities.

While in fiscal 2024, the in-person events, which included the MOA-hosted events along with other non-MOA events, decreased from 34 to 30; however, new marketing and outreach materials, such as updated Statewide HUB brochures and HUB handouts, made it easier for current and prospective HUB vendors to access online resources.

FISCAL YEAR HUB CERTIFICATION COMPARISONS

	FY24	FY23
Totals HUBs certified	16,988	16,841
Total CPA-certified HUBs	9,590	9,482
Total MOA-certified HUBs	7,398	7,359
Total expired HUBs	3,260	2,720
Total applications	7,293	6,593
New certifications	2,516	2,589
Recertifications	3,079	2,969

The online HUB certification system provides more accurate reporting of active HUBs and applications submitted and expired per fiscal year.

- The number of HUBs certified increased from fiscal 2023 to fiscal 2024.
- While the number of new certifications decreased slightly, the number of recertified applications increased. This indicates more HUBs recertified prior to their expiration date. Automatic recertification notices began going out 6-months due to a backlog of application processing. Expired HUB vendors who do not recertify prior to their expiration date will have to submit a brand new HUB application as the online system will not allow a recertification application to be submitted.

- The number of HUB and MOA HUB certifications increased as the program’s education and outreach focused on how to apply and recertify through the online certification system

OUTCOMES OF GOALS SET FOR FISCAL 2024

The initiatives to increase HUB marketing and training to various audiences were heavily strained in the past fiscal year: **37 percent of the identified goals were achieved.** While there were only four major goals for fiscal 2024, half involved multiple items. Collectively, the four education and outreach goals equated to eight areas of achievement. A deficiency in HUB Program resources and competing priorities hindered accomplishment of the remaining goals.

1. Create and provide updated training to educate and empower HUB vendor MOA, certification partner organizations, HUB Coordinators and purchasers.

- New HSP Forms and Processing Training: This goal was **not achieved.** Due to a lack of time management, resources, staffing within the program and competing priorities, this goal was not achieved. The new HSP Forms have not been fully developed or released, as this project was placed on hold per the Division Director.
- Mentor-Protégé Program Training: This goal was **achieved.** The Statewide HUB Program and the HUB Discussion Work Group committee provided a hybrid Mentor-Protege Program training session. The program also provided a Mentor-Protege Program and Relationship panel educational seminar during the “Doing Business Texas Style” Spot Bid Fair and HUB Expo.
- Vendor HUB Certification Application Portal Training: This goal was **achieved.** Texas A&M University Systems, Teacher Retirement System and the University of Houston hosted various HUB certification application portal training sessions sponsored by the Statewide HUB Program.

2. Attend at least one MOA-hosted event for each of the 12 MOAs in fiscal 2024. Plan and coordinate with each MOA entity to host an event, which the CPA could attend or cohost.

- This goal was **not achieved.** Not all MOAs communicated their outreach efforts and planned events with the Statewide HUB Program; therefore, the CPA was not able to attend 12 MOA-hosted events.

3. The HUB Program seeks to increase Certified Texas Contract Developer (CTCD) and Certified Texas Contract Manager (CTCM) training through continuous trainings, resources, and discussions.

- Revised HSP Forms: This goal was **not achieved.** Due to a lack of time management, resources, staffing within the program and competing priorities, this goal was not

achieved. The new HSP Forms have not been fully developed or released, as this project was placed on hold per the Division Director. The current HSP Forms Training was re-recorded in fiscal 2024 and is available for Continuing Education Units (CEUs) within the Learning Management System (LMS) of Statewide Procurement Division (SPD); however, it will need to be modified once the revised HSP forms have been made available.

- Updated 34 TAC 20 Rules: This goal was **achieved.** Statewide HUB Program conducted a virtual training during a HUB Discussion Work Group meeting for HUB Coordinators. Additionally, the Statewide Procurement Division provided an in-person Updated 34 TAC 20 Rules training. The recording is available for CEUs within the LMS of SPD.
- HUB Expenditure Reports: This goal was **not achieved.** Due to a lack of time management, resources, staffing within the program and competing priorities, this goal was not achieved. There is an existing HUB 101 Reporting recording, which is still applicable and is available for CEUs within the LMS of SPD; however, it may need to be modified for updates.

4. Continue working to finalize the HUB Coordinator Best Practice Manual.

- This goal was **not achieved.** Due to a lack of time management, resources, staffing within the program and competing priorities, this goal was not achieved. HUB Procurement Process Best Practice Manual for HUB Coordinators has been started but not completed. Additional time is needed to ensure the updated information is comprehensive, accurate and correlates to the program changes.

V. FUTURE EDUCATION AND OUTREACH GOALS FOR FISCAL 2025

The following initiatives will focus on the continued efforts not achieved in 2024, in addition to implementing organizational program practices to strengthen, streamline and help support the mission of the Statewide HUB Program in fiscal 2025.

1. **Prepare MOA partnering organization trainings.**
 - a. Ensure there is a clear understanding of the program’s compliance expectations.
 - b. Prepare and deliver MOA HUB Certification Application Processing and Compliance Trainings.
2. **Create a HUB training website.**
 - a. HUBs, MOAs and other vendors will have their own HUB training resources:

- Record outdated and new Statewide HUB Program training.
 - Collect and review HUB related videos, documents and information for the HUB training page.
- b. HUB Coordinator's HUB Training Resources:
- Increase CTCD and CTCM training through continuous trainings, resources, and discussions.
 - Collect and review all HUB related recordings, documents and information for approximately 200 internal HUB programs for the HUB training page.
- 3. Produce a quarterly HUB newsletter designed to educate and empower HUB vendors, certification partner organizations and others.**
- a. Include the following content:
- Statewide HUB Program announcements and updates.
 - Education and Outreach Forums.
 - CMBL and ESBD information.
 - Training Resources.
 - Vendor Resources.
- 4. Continue to revise and finalize the updated HSP Forms. *This is contingent on the backlog of HUB application processing and if the Division Director would like to continue these prior efforts.***
- a. Once the updated HSP forms are available they will be posted to the HUB forms website.
- b. Prepare and implement an Updated HUB Subcontracting Plan (HSP) training to agencies, universities and vendors.
- 5. Attend at least one MOA-hosted event for each of the MOAs in fiscal 2025. Plan and coordinate with each MOA entity to host an event, which the CPA could attend or co-host.**
- a. Communicate in the early stages of the new fiscal year to plan.
- b. Continue communication efforts throughout the year to ensure these events are achieved.
- 6. Continue working to finalize the HUB Coordinator Best Practice Manual.**
- a. Finalize the HUB Procurement Process Best Practice Manual.
- b. Prepare and deliver training on this item.
- 7. Continue to provide more HUB Mentor-Protege program training to state agencies, universities, and the HUB vendor Community.**
- a. Prepare and deliver additional trainings on this item, as required.

VI. MARKETING EFFORTS

EVENT SUMMARIES

Below are some of the events summarized with details such as offered information and the number of attendees and/or exhibitors:

2024 Small, Minority, Women, and Veteran Business Owners Conference

Host: Bexar County

Estimated number of attendees: 4,500

Number of Exhibitors: 170

Special Guests/Speakers: Federal, State and Local Elected Officials

This conference is a forum to develop relationships, acquire knowledge and access procurement opportunities with public and private sector entities. The conference teaches procurement staff about local firms with a desire to do business.

The event is designed to meet the needs of those in several areas:

- Vendors who work with the public and private sectors.
- Business owners who want to learn how to do business with the public and private sectors.
- Business owners who work in the private sector but want to learn public sector opportunities.
- Business owners who need technical or financial assistance.
- Potential business owners who would like to learn about opportunities and resources. .
- People who want to start a business.
- People who want to network with business owners, public and private sector staff and leaders to enhance their skill development and quality of life.

Doing Business Texas Style Spot Bid Fair & HUB Expo

Hosted: Dallas Fort Worth Minority Development Council and Statewide HUB Program

Estimated number of attendees: 1,800

Number of Exhibitors: 90

Special Guests/Speakers: Statewide HUB Program State Agencies and Representatives, Universities, Mentors, Proteges, Corporations and Private Sectors

The Spot Bid Fair & HUB Expo gave small business owners an opportunity to learn how to bid for contracts with state agencies, connect with procurement contacts and grow their businesses. Seminar Workshops included:

- Statewide HUB Certification: Overview and Procurement Resources.
- How to Become a Department of Information Resources Vendor.

- HUB Mentor Protégé Program and Relationships.
- Forecasting State Agency Construction Opportunities.
- How to Do Business with Corporations and the Private Sector.
- Construction Opportunities at UT Arlington, UT Dallas, UT Southwestern Medical Center and the University of North Texas.

Building Your Dream HUB Expo

Hosted: Golden Triangle Minority Business Council Statewide HUB Program

Estimated number of attendees: 615

Number of Exhibitors: 45

Special Guests/Speakers: Statewide HUB Program, State Agencies, Corporations and Private Sectors

The Building Your Dream HUB Expo include the following: all-day tabletop exhibits and open networking with state agencies and universities. This form provided business development education and resources, including:

- Statewide HUB certification and procurement resources

CPA MENTOR-PROTÉGÉ PROGRAM

WHAT PARTICIPANTS SAY ABOUT PARTNERSHIPS:

We love this program. It's been a win-win-win for our company, our protégé and our customers.

– Taurus Technologies Inc.

Our companies are teamed on various state programs and have enjoyed a successful relationship for many years supporting our agency customers. We wanted to solidify our partnership through the Texas CPA Mentor-Protégé program.

– FIS Global & Media Riders Inc.

Half and Zara have pursued contracting opportunities together for more than a decade and have continued pursuing contracting opportunities following the establishment of the mentor-protégé relationship.

– Half Associates Inc & Zara Environmental LLC

Every Mentor Protégé agreement is different and will have different areas of assistance to address. For example, Commonwealth and Best Buy were able to foster a relationship to grow Commonwealth's business and develop a broad performance plan to reach a broader group of clients.

– Texas A&M University

WHAT PARTICIPANTS SAY ABOUT MENTORSHIP:

Good mentors will stay connected with their protégés and actively seek contracts and opportunities where the protégé would be a good fit.

– PIER Group

A good mentor is a trustworthy, transparent, vulnerable, supportive and an active listener. Because we had a preexisting relationship, we already had a foundation of trust that facilitated us having more vulnerable and honest conversations down the road.

– Half Associates Inc & Zara Environmental LLC

We educated our protégé in the areas we chose together: bidding and cost estimating.

– FIS Global & Media Riders Inc.

To truly benefit from the experience of a longtime industry professional, it's essential to listen attentively and be open to their suggestions. Embracing their insights allows you to learn and grow more effectively.

– Texas GovLink Inc.

A mentor should be engaged and understand the business of the protégé. The mentor provides guidance and advice, at least minimally, to the mentee. The mentor should be an advocate for the mentee and assist with any advocacy needed with the mentor's company, the contracting officer or the customer.

– University of Texas Medical Branch

WHAT PROTÉGÉS SAY ABOUT PARTICIPATION:

Proteges who will benefit from this program are small business owners interested in working hard and learning the business of the mentor. Understanding the mentor's operations, decision making, and agency expectations are all important learning aspects.

– Nathe Management Consulting

It's a process. The more you learn, you realize that there is even more to learn. Engage with your mentor and work with them in various aspects of bidding for an opportunity. Understanding the nuances is the key. As you learn one step, you know that there are various other steps and try to learn those. It is a constant learning process in our view, as long as there is a willing mentor.

– vFusion LLC

Prime vendors with the vision and willingness to invest time and effort on smaller, disadvantaged businesses to help them develop and grow will reap several benefits:

- A HUB subcontractor that learns their industry, best practices, requirements and expectations, etc., tailored to their way of doing business.
- Their relationship creates "contract-ready" companies to use as HUB subcontractors.

5TH ANNUAL HOUSTON BUSINESS MATCHMAKER

A great opportunity for businesses to connect with government agencies and prime contractors.

Virtual Meetings

During pre-scheduled, 15-minute sessions, suppliers will have the chance to provide detailed information of their services and capabilities.

Pre-Event Preparation

Prior to March 1, participants can view pre-event webinars, which can help them prepare for matchmaking meetings.

Webinar Opportunities

Webinars will be available on the day of the event with topics ranging from Data Privacy and Compliance to Sustainable Technology.

GENERAL INFORMATION

This virtual event will provide small business owners (suppliers) from all industries the opportunity to connect with prime contractors, large businesses, and local, state and federal agencies (buyers). Small businesses must have been in business for at least two years to qualify for possible matches. Matches are not guaranteed.

About the Event

- Date: Friday, March 1
- Time: 8:45 a.m. to 3:30 p.m.
- Registration Fee: \$39

Hosts:

Interested in Becoming a Certified HUB?

Join the Statewide HUB Program and Teacher Retirement System for our hybrid HUB Pre-Certification Workshop where you will learn more about the benefits and qualifications of Historically Underutilized Business (HUB) certification.

Want to go to the next level? Bring your computer and our team will provide hands-on guidance of how to access and upload your business documents on the Texas Statewide HUB System.

Get started today by registering on Eventbrite for more details or to receive the link if you are participating online. Please scan the QR code for more information.

HUB Pre-Certification Workshop:
Date: July 11, 2024
Time: 10:00 a.m. - 12:30 p.m.

Location:
Teacher Retirement System of Texas
1000 Red River Street
Austin, TX 78701
West Entrance
