2. WELCOME FRANCHISE TAX ELECTRONIC FILING(XML)

2.1 *What is the Franchise Tax Web Service?*

Franchise Tax Web Service is a new technology enabling vendors and qualified entities to develop software using XML schemas for securely transmitting franchise tax reports and payments. The Texas Franchise Tax XML schema is modeled after the IRS MeF XML e-file structure utilizing TIGERS standards.

2.2 *Who Should Use This Manual?*

This developer guide and system integration manual is designed for:

- Software Managers and Architects
- Software Developers
- Testers
- Business Subject Matter Experts

2.3 *Who Can Participate?*

Texas CPA welcomes software vendors and qualified entities that have an IT setup to create Franchise Tax return and payment submissions through our web services.

- **Software Vendors** (tax software developers) may design this software as a product for any Texas franchise tax reporting entity. [See approved software transmission providers.](#)
- **Qualified Franchise** tax reporting entities with IT departments may develop this software for use by their own accounting departments. “Qualified Entity” means a person or persons that develop software for its own exclusive use and for the purpose of electronically filing its own Texas franchise tax return. (Person has the meaning assigned by Section 311.005, Texas Government Code.)

3. FRANCHISE TAX WEB SERVICE(XML) REGISTRATION

Franchise Tax Web Service provides Extensible Markup Language (XML) schemas for developers' use in designing software. The software developer must register with the Comptroller's office as a Transmitter in order to begin this process. Once approved, the Comptroller's office will provide the developer with the necessary documentation and XML schemas. Completed software applications must be tested and approved by the Comptroller's office before an official public release.

3.1 *Registration Process*

New vendors and Qualified Entities should:

1. Initiate the approval process by filling out the [Franchise Tax Web Service Transmitter Registration Form](#).
2. Sign the letter of intent provided by Texas CPA after completion of the on-line survey. Once the questionnaire is received and reviewed, the Comptroller's office will provide a Letter of Intent from XMLBusiness@cpa.texas.gov. This email address will be used for all correspondence. The Letter of Intent must be signed and returned each year.
3. Interested parties wanting to ping or submit test returns must provide an IP address(s) to the Comptroller's office at XMLBusiness@cpa.texas.gov.
4. Provide the Texas CPA your IP or Subnet information because our agency information security policy requires us to limit the web service access to trusted IP only. Interested parties wanting to ping or submit test returns must provide an IP address(s) to the Comptroller's office at XMLBusiness@cpa.texas.gov.

4. RETURNING VENDORS

4.1 *Yearly Required Approval Process*

Due to legislative, forms and coding changes, vendors are required to reapply for approval each report year. Vendors or qualified entities can continue to transmit for prior report years only for which they were previously approved.

4.2 *Returning Vendors Logon Credentials*

Please note that if you are a returning vendor, your logon credentials will not change. Please provide any updated or new origination IP addresses. Our test endpoint URL has changed: <http://www.comptroller.texas.gov/programs/systems/docs/ws-manual-v1-20.pdf>

5. PAYMENTS

5.1 *Make Payments Using XML*

The Web Service and corresponding franchise tax returns allow for payment submission with a return. Payments made in the test system will be processed in the Texas CPA's test environment. (Actual test payments will not be processed.) Example:

DE	Reference
RoutingTransitNumber:	111111111
BankAccountNumber: (at least 5 digits)	111111111
TypeofAccount:	SG
PaymentMethod:	ACH
PaymentAmount:	100.00
SettlementDate:	2010-11-30

5.2 *Alternative Payment Options*

In addition to transferring funds through web services, a payment can also be made to Texas CPA via the following methods:

- Pay by check
- Pay through Franchise WebFile using Payment Only Option
- Pay through TEXNET. **Important!**: Entities mandated to pay via TEXNET cannot submit payments via this web service.

6. TEST ENVIRONMENT

Texas CPA requires software vendors or qualified entities to transmit test submissions within our test integration environment. For a Vendor or Qualified Entity, final transmission approval is contingent upon the successful submission by the Vendor or Qualified Entity and processing by the Texas CPA of the following franchise tax forms and schedules with or without payment:

- ♦ EZ, schedules with or without payment
- ♦ Long Form, schedules with or without payment
- ♦ No Tax Due and schedules (no payment)
- ♦ Extension, schedules with or without payment
- ♦ You must enable WS Security during the testing. We are required to verify the IP information (initial contact or later changes) online or by phone call with your authority.

6.1 *Credentials for Testing*

Once registration has been approved the following will be provided for testing:

- User ID
- Password
- Test taxpayer numbers and WebFile numbers
- Test packet (instructions and test data)

6.2 *Testing Period*

Within the set Test and Enrollment Period(see the comptrollers website for test period dates), vendors or qualified entities can submit tests for approval with Comptroller's office. Tests must correctly pass Comptroller business rules and edits. The Comptroller's office will have personnel available to respond to inquiries and provide assistance with individual tests. Also, electronic approval is contingent on approval for paper submission. Concurrent testing for both is allowed and encouraged.

6.3 *Test Payments*

The web service and corresponding Franchise tax returns allow for payment submission with a return. Payments made in the test system will be processed in the Texas CPA's test environment. (Actual test payments will not be processed.)

7. WEB SERVICES AND SYSTEM TECHNICAL INFORMATION

7.1 *Web Services Ping Service*

The Texas CPA publishes a web service that will receive Franchise tax returns and check the return status. The availability of this web service can be checked by using the “ping” service. Here is a full example of using SOAP to send a “ping” request. Below is an example of the complete ping request Soap Message with WS security header.

```
<soapenv:Envelope xmlns:fset="http://www.statemef.com/FSETGatewayService"
xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/">
<soapenv:Header>
<wsse:Security xmlns:wss="http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-wssecurity-secext-
1.0.xsd">
<wsse:UsernameToken wsu:Id="UsernameToken-6" xmlns:wsu="http://docs.oasis-open.org/wss/2004/01/oasis-
200401-wss-wssecurity-utility-1.0.xsd">
<wsse:Username>testuserid</wsse:Username>
<wsse:Password Type="http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-username-token-profile-
1.0#PasswordText">xxxxxxxxxx </wsse:Password>
</wsse:UsernameToken>
</wsse:Security>
</soapenv:Header>
<soapenv:Body>
<fset:PingRequest/>
</soapenv:Body>
</soapenv:Envelope>
<soapenv:Envelope xmlns:fset="http://www.statemef.com/FSETGatewayService"
xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/">
<soapenv:Header>
<wsse:Security xmlns:wss="http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-wssecurity-secext-
1.0.xsd">
<wsse:UsernameToken wsu:Id="UsernameToken-6" xmlns:wsu="http://docs.oasis-open.org/wss/2004/01/oasis-
200401-wss-wssecurity-utility-1.0.xsd">
<wsse:Username>testuserid</wsse:Username>
<wsse:Password Type="http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-username-token-profile-
1.0#PasswordText">xxxxxxxxxx </wsse:Password>
</wsse:UsernameToken>
</wsse:Security>
</soapenv:Header>
<soapenv:Body>
<fset:PingRequest/>
</soapenv:Body>
</soapenv:Envelope>
```

7.2 Web Service Security Information

1. This project uses Security Username Token for authorization. Please follow this link to look up OASIS WS Security Username Token Profile 1.0 specification: www.oasis-open.org/committees/tc_home.php?wg_abbrev=wss

```
<soapenv:Header>
<wsse:Security soapenv:mustUnderstand='1'
xmlns:soapenv='http://schemas.xmlsoap.org/soap/envelope/'
xmlns:wsse='http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-wssecurity-secext-1.0.xsd'>
<wsse:UsernameToken>
<wsse:Username>testuseraccount </wsse:Username>
<wsse:Password Type='http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-username-token-profile-1.0#PasswordText'>*****</wsse:Password>
</wsse:UsernameToken></wsse:Security>
</soapenv:Header>
```

7.3 WS Security Implementation Example (Java)

```
import java.util.HashMap;
import java.util.Map;
import javax.xml.namespace.QName;
import us.tx.state.cpa.mycpa.FranchiseServicePortBindingStub;
import us.tx.state.cpa.mycpa.FranchiseService_PortTypeProxy;
import com.ibm.websphere.webservices.Constants;
public class ProxyUtil {
public static FranchiseService_PortTypeProxy setProxy(String url,String userName, String password)throws
Exception{
FranchiseService_PortTypeProxy proxy = new FranchiseService_PortTypeProxy();
proxy.setEndpoint(url);
Map map = new HashMap();
QName qname = new QName("http://docs.oasis-open.org/wss/2004/01/oasis-200401-wsswssecurity-secext-1.0.xsd", "wsse");
map.put(qname, getHeader(userName,password));
FranchiseServicePortBindingStub _stub =
(FranchiseServicePortBindingStub)proxy.getFranchiseService_PortType();_stub._setProperty(Constants.REQUE
ST_SOAP_HEADERS, map);
return proxy;
}
public static String getHeader(String userName, String password) {
return "<wsse:Security soapenv:mustUnderstand='1'
xmlns:soapenv='http://schemas.xmlsoap.org/soap/envelope/' xmlns:wsse='http://docs.oasis-
open.org/wss/2004/01/oasis-200401-wss-wssecurity-secext-1.0.xsd'>"
+ "<wsse:UsernameToken>"
+ "<wsse:Username>"+userName+"</wsse:Username>"+ "<wsse:Password Type='http://docs.oasis-
open.org/wss/2004/01/oasis-200401-wss-username-token-profile-1.0#PasswordText'>"+password+"</wsse:Password>"
+ "</wsse:UsernameToken>" + "</wsse:Security>";
}
}
```

8. PRODUCTION RELEASE AND SUPPORT

8.1 *Production Support*

The Texas CPA will provide IT staff and tax experts to trouble shoot any errors and system failures related to your submission. We will have internal monitoring tools to analyze the trend of the submissions being received. An alert system will warn our staff of potential issues occurring. We will contact you if necessary.

We have security controls in place in the production environment to prevent malicious submissions, persistent system errors and/or corrupt data.

For production issues, please contact us using the contact information located under section **14. Location of Resources**.

8.2 *Production Readiness*

To allow our server team to conduct IP whitelisting, vendors must supply the list of server IPs for their production servers, or alternatively, an IP mask that can be used to whitelist connections. This must be provided to Texas CPA 7 business days before the first submission to production.

8.3 *Submitter's IP Address*

The IP address or the subnet address for the submitter must be provided in order for a submitter to be set up to submit files to our WSDL.

8.4 *Preparer Validation*

In order to verify that the preparer of the return is the taxpayer or has been authorized by the taxpayer, there are two pieces of information that could be entered. Only one of the two is required:

- The first piece of information is the taxpayer's WebFile number. This is a security code that has been mailed to all State of Texas Franchise taxpayers. If the taxpayer has misplaced the information, it can be retrieved by calling the Electronic Reporting Section at 1-800-442-3453.
- The second piece of information is the Total Revenue line from the latest tax return filed by the taxpayer. If revenue was zero, it cannot be used. This is line 6 on the No Tax Due Information Report, line 10 on page 1 of the Texas Franchise Tax Report or line 10 on the EZ Computation Report.

8.5 *Perfection Period*

If a timely submitted report is rejected by the Comptroller, the submitter shall have a 10 calendar day perfection period from that submission to resubmit a corrected report.

8.6 *Requirements for Successful Submissions*

The Texas Franchise tax XML schema is modeled after the IRS MeF XML e-file structure, utilizing TIGERS standards. Attention: All XML submissions MUST conform to the appropriate schemas, and should be validated against the schemas prior to transmission, or otherwise verified. Any XML transmissions that contain incomplete, malformed, or schema-invalid fields and documents will NOT be processed.

8.7 *Required Fields*

Submission ID: Format is 6 digit EFIN + CCYYDD + 7 character lower case sequence. The EFIN is the IRS Electronic Filer Identification Number. These 20 bytes must be unique for each submission. Transmission will be rejected if submission Id is missing, not unique or does not follow format.

Valid return types: This element must be entered and specifies which type of return is being filed. Valid codes include:

- "NOTAXDUE"
- "LONGFORM"
- "EZFORM"
- "EXTENSION"
- "PIR/OIR"

8.8 *Required Order of Forms for Transmission*

For transmitting returns, the forms must be in the order described in the schema. Out-of-order forms will be rejected.

8.9 No Tax Due Package Required Order

The law requires all No Tax Due Reports originally due after January 1, 2016 to be filed electronically.

9. SUBMISSION REJECTION

If your XML fails to conform to our schema, you will receive a transmission time SOAP failure (Error code 505). The sample of transmission time error will be:

```
<soapenv:Envelope xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
xmlns:soapenc="http://schemas.xmlsoap.org/soap/encoding/" xmlns:xsd="http://www.w3.org/2001/XMLSchema"
xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">
<soapenv:Header/>
<soapenv:Body>
<soapenv:Fault>
<faultcode xmlns:p987="http://www.statemef.com/FSETGatewayService">p987:MeFExceptionType</faultcode>
<faultstring>com.statemef.www.MeFExceptionType</faultstring>
<detail encodingStyle="">
<p987:MeFException xmlns:p987="http://www.statemef.com/FSETGatewayService">
<p987:ErrorMessage>Request is not valid: cvc-pattern-valid: Value '333aaa' is not facet-valid with
respect to pattern '([0-9]{9,9})|((([1]{1})|([3]{1})))[0-9]{10,10})' for type 'TXITINType'. Line 127,
column 45.</p987:ErrorMessage>
<p987:ErrorClassification>REQUEST_ERROR</p987:ErrorClassification>
<p987:ErrorCode>505</p987:ErrorCode>
</p987:MeFException>
</detail>
</soapenv:Fault>
</soapenv:Body>
```

9.1 *Checking a Status Code*

When submitting a return (with or without payment), the transmitter will be provided a unique submission id. The transmitter should record the submission id for future status checking purposes. SubmissionId will follow TIGERS standards. For example: 11122311101801231234 (6 digit EFIN + CCYYDD + 7 character lower case sequence). Please allow at least 2 hours from the time of submission. Soap Message Example of Checking the Return Status:

```
<soapenv:Envelope xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
xmlns:fset="http://www.statemef.com/FSETGatewayService">
<soapenv:Header>
<wsse:Security soapenv:mustUnderstand='1'
xmlns:soapenv='http://schemas.xmlsoap.org/soap/envelope/'
xmlns:wsse='http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-wssecurity-secext-1.0.xsd'>
<wsse:UsernameToken>
<wsse:Username>testuseraccount</wsse:Username>
<wsse:Password Type='http://docs.oasis-open.org/wss/2004/01/oasis-200401-wss-username-token-profile-
1.0#PasswordText'>*****</wsse:Password>
</wsse:UsernameToken></wsse:Security>
</soapenv:Header>
<soapenv:Body>
<efil:TXSubmissionStatusRequest>
<efil:SubmissionIdList>
<efil:Count>1</efil:Count>
<efil:SubmissionId>11122311101801231234</efil:SubmissionId>
</efil:SubmissionIdList>
</efil:TXSubmissionStatusRequest>
</soapenv:Body>
</soapenv:Envelope>
```

9.2 Runtime Transmission Rejection

You will receive a runtime error (SOAP Fault) with following conditions.

- Web Service security failure (Please fix on your side. You may contact CPA for help)
- Duplicated or missing Submission ID (Please fix on your side)
- Non-conformed XML schema 505 error(Please fix on your side. You may contact CPA for help, please see overview section for example of the rejection message.)
- Unexpected network or hardware failure from CPA (Please contact CPA)

A common best practice is to use our Ping Web Wervice to verify our system's availability before submitting a bulk transmission. You should receive the code "Online" from the Ping.

9.3 Submission Status Codes

When a return (with or without payment) is submitted, we will provide a status on that return through our Web Service. Here are our status codes you can expect:

Status Code	Status Code Description	Follow Up Actions
0000	Pending: The submission has been received by the Texas CPA system and waiting to be processed.	None
1000	Packet Processed: The submission; return, attachment and payment (if any) has been validated and recorded in the Texas CPA system.	None
2010	Packet Processed with Attachment Errors Found: The return and payment (if any) has been validated and recorded in the Texas CPA system.	Resubmit attachments that have errors. Do not need to resubmit the return or payment (if any).
2020	Packet Processed with Payment Errors Found: The return and attachments have been validated and recorded in the Texas CPA system. However, the payment has errors and did not process.	You do not need to submit the packet again. A payment can be made through: Webfile Payments Only application TEXNET, (if user has a TEXNET account) Paper Check
2030	Packet Rejected with Errors in both an Attachment and Payment: The return has been validated and recorded in the Texas CPA system. However, the payment has errors and did not process and one or more attachments also have errors.	You do not need to resubmit the return again. Please resubmit only the attachment that has errors and make payment through: Webfile Payments Only application TEXNET, (if user has a TEXNET account) Paper Check
3010	Packet Rejected with errors in return and/or attachment(s): The payment is processed if attached. The return has one or more serious errors and has not been recorded in the Texas CPA system. One or more attachments (if any) may have errors. The payment has been received and has processed successfully.	You DO need to correct the errors and resubmit the return and/or attachments. You do not need to submit another payment. Your payment has already been processed.
3020	Packet Rejected with errors in return and/or attachment and/or payment: The return has one or more serious errors and has not been recorded in the Texas CPA system. One or more attachments(if any) may have errors. If a payment was included it had errors.	You DO need to correct the errors and resubmit the entire packet. If a payment was included in the packet, it was not processed and should be included in the resubmitted packet.
4010	Packet Rejected with technical issues	Contact Vendor Support Division. The Software Vendor will contact Texas CPA if they need assistance
9999	Submission Not Found: There was no submission found for this particular submissionId	Check the submissionID and retry.

10. XML FORM REQUIREMENTS

This section details the XML requirements from the perspective of each form. While the common data information is not on each form, it is required to validate that the preparer can file for the taxpayer as well as defining other common taxpayer information.

The common data information is included in the PIR, OIR, Tiered Partnership, Affiliate Schedule, Extension Request and Affiliate List because these forms can be filed individually. If they are filed with a No Tax Due, E-Z Computation, Long Form or Extension Request, the common data information is only needed once.

1. The first column of these tables has either the description name from the tax return or schedule or a description of information needed to file the return electronically.
2. The second column shows the location in the schema for the information.
3. The third column describes data status as one of the following:
 - a. Required: Must not be left blank.
 - b. Optional: May be included but is not required
 - c. Conditional: This item is the subject of a relational condition which links its usage with that of other items.
4. The fourth column describes edits that are necessary to validate the data.

11. COMMON DATA VALIDATION

11.1 Header

Paper Report Description	XML Schema Element Name	Status	XML Edits
Return Type	TXBusiness2010V1.0/StateBusiness/BusinessReturnHeaderState.xsd <xsd:element name="ReturnHeaderState" type="BusinessReturnHeaderStateType" /> <xsd:complexType name="BusinessReturnHeaderStateType"> <xsd:complexContent> <xsd:extension base="ReturnHeaderType"> <xsd:sequence> <xsd:element name="ReturnType" type="ReturnTypeType" /> TXBusiness2010V1.0/StateBusiness/BusinessStateEnumerations.xsd <xsd:simpleType name="ReturnTypeType">	Required	Valid codes are: <ul style="list-style-type: none"> ♦ "NOTAXDUE" ♦ "LONGFORM" ♦ "EZFORM" ♦ "EXTENSION" Other codes are not currently supported.

11.3.1 SIC CODE EDITS FOR FORM 05-158B

Form 05-158b: Long Form Page 2 Specification

- If SIC code is blank or not between 5000-5199 or 5210-5999 or 7299, 7353, 7359, 7377, 7532, 7533, 7534, 7536, 7537, 7538, 7539 populate .009750 in <TaxRate> (05-158B) and the value for <SICQuestion1>, <SICQuestion2> and <SICQuestion3> should be “X” in the XML.
- If SIC code is equal to 5812, 5813, 5814, 5816 or 5817 populate .004875 in <TaxRate> (05-158B) and the value for <SICAnswer1>, <SICAnswer2> and <SICAnswer3> should be “X” in the XML.
- If SIC code is between 5000-5199 or 5210-5811 or 5818-5999 (and report year is equal to 2014 or greater), prompt these questions.
 - <SICAnswer1> Is the entity's total revenue from activities in a retail or wholesale trade greater than the total revenue from activities in other trades? (“True” or “False”)
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? (“True” or “False”)
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? (“True” or “False”)
- If SIC code 7299 (and report year is equal to 2014 or greater), prompt these questions
 - <SICAnswer1> Is the entity's total revenue from activities in apparel rental and other retail and wholesale trade greater than its total revenue from activities in other trades? (“True” or “False”)
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? (“True” or “False”)
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? (“True” or “False”)
- If SIC code 7353 (and report year is equal to 2014 or greater), prompt these questions:
 - <SICAnswer1> Is the entity's total revenue from activities in heavy construction equipment rental or leasing and other retail and wholesale trade greater than its total revenue from activities in other trades? (“True” or “False”)
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? (“True” or “False”)
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? (“True” or “False”)
- If SIC code 7359 (and report year is equal to 2014 or greater), prompt these questions.
 - <SICAnswer1> Is the entity's total revenue from activities involving the rental or leasing of tools, party and event supplies, furniture and/or rental-purchase agreements regulated by CH.92, Business & Commerce Code and other retail and wholesale trade greater than its total revenue from activities in other trades? (“True” or “False”)
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? (“True” or “False”)
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? (“True” or “False”)
- If SIC code 7377 (and report year is equal to 2014 or greater), prompt these questions.
 - <SICAnswer1> Is the entity's total revenue from activities in rental-purchase agreements regulated by CH.92, Business & Commerce Code and other retail and wholesale trade greater than its total revenue from activities in other trades? (“True” or “False”)
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? (“True” or “False”)
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? (“True” or “False”)

- If SIC code 7532, 7533, 7534, 7536, 7537, 7538 or 7539 (and report year is equal to 2014 or greater), prompt these questions (If the answers are TRUE, TRUE, FALSE then populate 003750 in <TaxRate> (05-158B). If the answers are not TRUE, TRUE, FALSE then populate .007500 in <TaxRate> (05-158B))
 - <SICAnswer1> Is the entity's total revenue from activities in auto repair and other retail and wholesale trade greater than its total revenue from activities in other trades? ("True" or "False")
 - <SICAnswer2> Does less than 50% of the total revenue from activities in a retail or wholesale trade come from the sale of products produced by the entity or produced by an entity that is part of an affiliated group to which the entity also belongs (except for those businesses under Major Group 58. Eating and Drinking Establishments)? ("True" or "False")
 - <SICAnswer3> Does the entity provide retail or wholesale utilities, including telecommunications services and electricity or gas? ("True" or "False")
